A full range of conveyors & elevators

Niagri can manufacture a single conveyor, an integrated conveyor system or design your complete line to help make your machinery more productive.

We manufacture conveying equipment for a wide range of industries including food production, material handling, waste management and recycling. Our conveyors are constructed from heavy duty materials to withstand vigorous use.

A complete range of conveying equipment, manufactured in the UK. All our machinery is built with maintenance in mind, accessible parts, obtainable parts and service back up when you require it.
